### 26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format

Sr. No.	Material Issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Increased temperature and heat waves	Risk	Increase in temperature and prolonged heat waves may create unsafe environment and cause health & safety risks for the workforce	The risk is minimised as most of the mining operations are mechanised with minimal human tasks in the open environment. All equipment/ machinery being operated have air conditioned cabins. In case of power generation operations, the Company maintains infrastructure to reduce impact of extreme heat. Adequate sheds are also installed to provide places for workers to rest and for protection from outside heat.	Negative
2	Water scarcity	Risk	Water scarcity & less rainfall/droughts might impact the mining and electricity generation processes as water is one of the main resources consumed by the Company	The Company has access to various water sources to enable diversification in case of water scarcity. It also maintains reservoir with upto 5 days worth of water requirements in case of emergency. Additionally, it also has supply from the ground water around Bodhan and Patan as a standby source of water. Due to all this, the risk of disruption due to water scarcity is minimal.	Negative
3	Disruptive weather events	Risk	Disruptive weather events like high or low wind speed, cyclones, hurricanes, floods, etc. impact and can cause disruption and risks to the company operations	The Company is transitioning to more solar power generation assets to mitigate any impact from abnormal wind speed, in particular low wind speed which is becoming more common across India. The Company's solar and wind assets have defence mechanism (barriers, etc.) to prevent any impact from floods.	Negative

Sr. No.	Material Issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
4	Net-zero transition	Opportunity	Demand for renewable energy is on the rise as a response to reduce GHG emissions and transition towards a low/no-carbon economy, which represents a massive business opportunity for the Company. Over the past few years, the Company has increased its electricity generation mix to include more renewable assets like solar farms and wind farms. The Company will continue to expand its renewable infrastructure portfolio to enable more electricity generation from renewable sources to enable India's transition to a net-zero economy	Not applicable	Positive
5	Affordable electricity	Opportunity	Compared to industry peers, the Company produces electricity at a lower cost, in turn benefitting the end customers and wider society and communities. Through adopting new technologies, innovation and industry best practices, it will continue to strive towards producing electricity at lower costs, thereby helping address energy poverty and contributing to UN SDG 7 - 'Affordable & Clean Energy'.	Not applicable	Positive

## Gujarat Industries Power Company Limited

Sr. No.	Material Issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
6	Occupational health and safety	Risk	Safeguarding our workforce is a crucial component of our business strategy	The Company focuses on workforce health & safety as a key priority and has robust procedures in place to minimise and prevent risk of injury and accidents. Through proactive efforts, the Company continues to adopt best practices in relation to health & safety and strives to ensure 'zero accidents' across its operations, which it has achieved successfully over the past years.	Negative
7	Resource Use and Management	Opportunity	The Company use large amounts of natural capital inputs (fossil fuel) such as lignite, water and others in the power production process. Enhancing the resource efficiency and increasing the usage of materials with recycled and reclaimed content across business operations.	Not applicable	Positive
8	Emissions Management	Risk	Failure to comply with emission norms could lead to negative/ inevitable long-term impact on the environment and society, with imposition of levies/ fines/ directions, escalation in costs related to monitoring and reporting.	The Company adopts latest technology and industry-leading practices in its operations to reduce air emissions as well as greenhouse gas emissions. The Company takes support from external government-accredited third parties for audits and checks to ensure effectiveness of its measures and implement changes as required. The Company also ensures compliance with regulations and periodic filing as required.	Negative

Total Scope 1 and Scope 2 emission intensity in terms of physical output (Metric tonnes of CO <sub>2</sub> equivalent/ total output in Million Units)		1,006.32	981.20

## Gujarat Industries Power Company Limited

The Scope 1 and Scope 2 emissions are from the energy fuel usage and electricity consumption and fuel usage at the corporate office and the mining and electricity generation facilities in India. The Company activities do not generate any other process or fugitive emissions.

Note:

- Following clarification based on recent SEBI guidelines, only revenue from operations has now been considered (compared to total turnover) for calculating intensity metrics. The corresponding numbers for FY 2023-24 have also been updated.
- Revenue from operations has been adjusted for PPP factors for India published by The World Bank. PPP factors considered are 20.22 for 2024 and 20.45 for 2025.
- The GHG intensity in terms of physical output is based on the total units of electricity generated (in million Units) by the Company.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No, the Company has not undertaken any independent assessment/assurance of the environmental data disclosed in the report.

- Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Through ongoing process improvements and implementing latest available technology, the Company continuously aims to reduce its carbon footprint.

During FY 2024-25, the Company has also implemented various process-related and technology-focused changes in the power generation processes across all its plant locations. Due to this, the Company has used lesser fuel while maintaining the electricity production levels, which has led to a reduction in the GHG emissions for the year. Additional details on this are covered as part of the Director's Statement in the Annual Report.

- Provide details related to waste management by the entity, in the following format:

Parameter	FY 24-25	FY 23-24
<b>Total Waste generated (in metric tonnes)</b>		
Plastic waste (A)	-	-
E-waste (B)	-	-

Note:

- Following clarification based on recent SEBI guidelines, only revenue from operations has now been considered (compared to total turnover) for calculating intensity metrics. The corresponding numbers for FY 2023-24 have also been updated.
- Revenue from operations has been adjusted for PPP factors for India published by The World Bank. PPP factors considered are 20.22 for 2023-24 and 20.45 for 2024-25.
- The waste intensity in terms of physical output is based on the total units of electricity generated (in million Units) by the Company.
- The Company has obtained more specific data about waste generation across its operations. The FY 25 disclosure reflects such additional data gathered by the Company. Corresponding data for FY 2023-24, where relevant, has also been updated to reflect these changes.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No, the Company has not undertaken any independent assessment/assurance of the environmental data disclosed in the report.

- Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Company follows a robust waste management practice with the aim of reducing, reusing or recycling the waste generated from its operations. Electricity generation from solar power, wind mills and gas do not generate any specific waste to reclaim.

Fly ash is the key waste generated as part of the electricity generation from thermal sources. There are procedures in place where the Company captures 100% of the fly ash generated which is then onward sold to the companies in real estate sectors for use in producing green cement / concrete mix.

The Company does not generate any other hazardous or toxic waste as part of its operations.

The Company continues to win awards at pan-India level for its fly ash management processes being implemented across its plant locations.

- If the entity has operations / offices in / around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

S. No.	Location of operations/ offices	Type of operations	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any.
-	-	-	-

None of the plants/offices of the Company fall in/around ecologically sensitive areas.

	Number	Reasons for recall
Voluntary recalls	Product recalls are not applicable to the Company operations.	
Forced recalls		

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

The Company has established various processes which deal with cyber security and risks related to data privacy.

The Company treats all information related to employees, customers, other business stakeholders and interested parties with utmost care and confidentiality and has established robust IT infrastructure for data protection. There is a dedicated IT team which monitors cyber security and data privacy processes on an ongoing basis to identify any vulnerabilities within IT infrastructure and undertake proactive measures to addresses them.

The Company has implemented industry best practices to become more proactive in its approach to ensure the data security. Additionally, there are risk assessment procedures in place in order to mitigate any risks related to data privacy.

During FY 2024-25, as part of the ongoing focus on cyber security, the Company has implemented the following new initiatives:

- i) on-premises backup servers to centralize and secure its data storage thereby avoiding users from forgetting to back up on portable drive and mitigating risk of potential data loss/theft. Previously, the company relied on portable external hard drives for data backup purposes.
- ii) installed a new firewall solution at the Khavda Site and upgraded the firewall at the SLPP site.
- iii) moved its email server from a locally hosted infrastructure—previously identified as a potential security risk—to a more secure cloud-based platform
- iv) engaged an accredited cybersecurity auditor to assess and validate the company's IT security framework and practices

The Company is registered with CERT-IN (Indian Computer Emergency Response Team) and NCIIPC (National Critical Information Infrastructure Protection Centre). Both institutions provide regular advisories and recommendations on cybersecurity measures. The company implements suggested improvements promptly, including real-time firewall upgrades and security protocol enhancements

Additionally, the Company has also engaged a third-party service provider for continuous, real-time monitoring of cyber threats and vulnerabilities, and support in adopting a proactive cybersecurity posture through timely interventions and system improvements.

6.
